

Also Available:

Sheared Head Shutgun & Attachment

The galvanized steel arms of the Sheared Head Shutgun fit over the top of the BROKEN frame allowing the Shutgun to immediately stop water from a sprinkler that has had all or part of its frame and diffuser sheared off.

Product Code

Sheared Head Shutgun
SHSG002

Concealed Head Shutgun

The longer head of the Concealed Head Shutgun was specifically engineered for those hard to reach, concealed head sprinkler models mounted inside the ceiling that are becoming more common in condos, hotels and office buildings.

CHSG003

Technicraft Product Design Inc.

The world's leading
sprinkler shut off tool

Shutgun® *shuts off fire sprinklers fast!*

NEW!

Institutional Shutgun®

Designed for unique sprinkler heads commonly used in correctional facilities, medical and hospital buildings, hotels, shopping malls, and all commercial settings, all across the globe.

Product Code:
ISG004

Attachments are available for the Shutgun so that it can shut off 3/4" sprinkler heads, as well as 1/2" and 3/4" sprinklers that have had their arms sheared off.

	Product Code
1/2" Sheared Head Attachment	SHA005
3/4" Attachment	SHA0075
3/4" Attachment	A34006

Keep your Shutguns together and protected with our hard plastic case. Purchase it alone or with any combination of our 4 Shutguns: Original, Sheared Head, Concealed Head, and Institutional; and/or 3 Attachments: 3/4" Attachment to shut off the larger orifice found on 3/4" heads; 1/2" or 3/4" Sheared Head Attachments

One sprinkler head left running can cost \$1,000 in losses every minute! It pays to have one in EVERY TOOL BOX and on EVERY FLOOR!

Simply place the jaws in the opened sprinkler head and stop the water immediately with an easy one-handed squeeze

Shutgun works on all exposed, recessed, concealed, institutional, sheared, 1/2" and 3/4" sprinkler heads.

Unique **fusible link** will release in case of fire – reactivating the sprinkler, keeping your building fully protected

Product Code:
SG0001
